

AFTERBURNER BLACK OPS

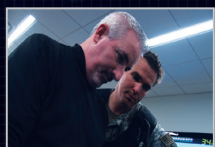

SERIOUS TIMES REQUIRE A SERIOUS BUSINESS PROCESS

From the undisputed leader in experiential team building, Afterburner announces Black Ops. Black Ops is a high intensity experiential training event that utilizes the can't fail techniques that elite Special Operations teams use to execute in challenging and often hostile environments. This three hour interactive seminar will utilize cutting edge iTouch technology in our break outs, Google mapping type software and real-time special operations rescue scenarios to put your team into HIGH ALERT. This experience will provide them the ROI of **focused teamwork, urgent action, and planning/debriefing tools** that have worked in real military situations when failure is not an option. Enlist your team today into a truly immersive environment. Enlist your team in Black Ops.
