

Edmonton Public Teachers

Local No. 37 of the Alberta Teachers' Association

March 17, 2009

Dear Colleagues,

“For those facing the challenge of change, and let’s face it; who isn’t; I can’t recommend Warren Macdonald highly enough. A new perspective, an “expanding of the mind” is what we were looking for, and that’s exactly what Warren delivered.

Warren understood us from the outset, capturing the audience’s full attention from the first word to the last. As teachers, we often feel misunderstood, so the effort Warren made to connect with us was not only greatly appreciated but made for an exceptional experience that literally knocked our socks off.

Thanks so much again for making our 2009 conference a huge success and for helping us shift our perception on the challenges ahead.”

Best Regards,

Mark Ramsankar
